THE HARTFORD CITY DIRECTORY has now been published for thirty years, showing an annual increase in population of this city and size of the work, from a pamphlet of 72 pages to a bound volume of 535 pages, and population from 10,000 to about 45,000, with an increase in names from 1625 to 10,427! We have this year added 2265 new names and have erased and noted 4394 removals and alterations from last year. Thus our citizens will see that we now publish a work of upwards of seven times as many pages as it was the first years of its issue, which with the greatly enhanced price for paper and labor thereon, would bring each copy of this work over $7.00 a copy to correspond with the price paid for its first issues—50 cents a copy.

We hope the citizens of Hartford will give us a merited liberal support this year by purchasing more copies than heretofore, and that purchasers will refuse to lend their respective copies to citizens of this city, and thus compel borrowers to become purchasers. This should be done in justice to the publisher and to our patrons.

We have superseded the cloth binding heretofore used with a more substantial style, and issued at an earlier date than usual.

The following table giving the number of pages and number of names contained in each year's Directory since its publication, shows the steady and rapid growth of the City of Hartford:

HARTFORD, JUNE 1, 1867.

EXPLANATIONS.

THE business location of individuals engaged in business for themselves, is first mentioned in connection with their names, and then their place of residence. Especial pains has been taken to ascertain the name, residence and occupation of every male person, twenty-one years of age and upwards. But when mistakes or omissions have heretofore occurred, in nine cases out of ten, they have been caused by those giving the information.

When two different numbers are given in connection with one name, and only one street mentioned, the number first given is the place of business, and the second the residence, and both in the same street.

The letter h. signifies house; res. residence; st. street; bds. boards; av. avenue; r. rear, &c.

GUIDE TO THE LOCATION AND NUMBERS OF STREETS AND AVENUES IN THE CITY OF HARTFORD.

The streets running north and south are invariably numbered from the south, except Wethersfield avenue and Seymour st. numbering from the north; those running east and west are numbered from Main street, or from the end of the street pointing thereto. Odd numbers on the SOUTH *and* WEST *sides, uniformly. The names of all streets running north and south (except Main,) change at Park river, and all east and west at crossing Main st. This Guide indicates at a glance the proximate locality of any required number on any street; for example, if you desire to know about where No.* 120 *Albany street is located, this guide shows you that, being an even number, it will be found on the north side, and about mid-way between Williams and Greene streets. This is a new feature added to the Directory, and will be found of great practical convenience.*

KENNEDY'S BEE HIVE,

Patented February 9th, 1864.

The expert Bee-keeper will find it everything he needs in a hive. The learner will be able to understand it, and all who use it cannot but be satisfied that it exactly meets the want caused by the introduction of the Italian or tame Bee.

A swarm of Bees in one of these hives, filled with comb and honey, can be transferred, each comb separately, into a new hive in less than five minutes. While it is perfectly simple and cheap, every operation, desirable or necessary, can be performed with ease. The inventor has had a long experience in bee-culture, and now invites all who feel an interest in the subject to visit his Apiary, where he thinks they will become satisfied that the business of bee-keeping is but little understood, or its importance realized, by a large majority of bee-keepers.

THE ITALIAN HONEY BEE.

THE SUBSCRIBER has cultivated the ITALIAN BEE three years in California and four years in Hartford, and can now speak with confidence of its superiority over the common or black Bee.

I have bought of "S. B. Parsons, Flushing, N. Y.," the original importer of the Italian Bee, all his desirable stocks, which, with those previously on hand, will enable me to fill all orders for queens or full swarms. My Apiary is 778, corner of Main and Kennedy streets, where all who take an interest in Bee culture are invited to call, or address the subscriber for circular containing particulars and terms.

GET THE BEST

WEBSTER'S DICTIONARY

UNABRIDGED

NEW ILLUSTRATED

OVER 300 FINE ENGRAVINGS.

10,000 Words and Meanings not in other Dictionaries

What Library is complete without the best English Dictionary?

"Superior, in most respects, to any other English Dictionary known to me."—*Hon. George P. Marsh.*

"THE NEW WEBSTER is glorious—it is perfect—it distances and defies competion—it leaves nothing to be desired."—*J. H. Raymond, LL. D., Prest. of Vassar Coll.*

"All young persons should have a standard Dictionary at their elbows. And while you are about it, GET THE BEST; that Dictionary is NOAH WEBSTER'S—*The great work unabridged.* If you are too poor, save the amount from off your back to put it into your head."—*Phrenological Journal.*

"Every *farmer* should give his sons two or three square rods of ground, well prepared, with the avails of which they may buy it. Every *mechanic* should put a receiving box in some conspicuous place in the house to catch the stray pennies for the like purpose. Lay it upon your table by the side of the Bible; it is a better ezpounder than many which claim to be expounders. It is a great labor-saver; it has saved us time enough in one year's use to pay for itself; and that must be deemed good property which will clear itself once a year. If you have any doubt about the precise meaning of the word *clear*, in the last sentence, look at Webster's nine definitions of the *v. t.*"—*Massachusetts Life Boat.*

In one vol. of 1,840 Royal Quarto Pages.

Published by G. & C. MERRIAM, Springfield, Mass. Sold by all Booksellers.

MIND, MATTER MONEY, BEAUTY.—Webster's Quarto Dictionary, as now published, has cost more intellectual labor, more money in its "getting up," and contains more matter, and a larger number of beautiful engravings, than any single volume ever before published for popular use in this or any other country. Bell & Daldy, the new publishers of Bohn's libraries, are the London publishers of this magnificent volume.

I HAVE FALLEN IN LOVE WITH IT.—The new illustrated Webster is beautiful. It is the dictionary of dictionaries. *I have fallen in love with it.* So has my wife, and so have my children. Charles has begun to study it. Looking at a picture he says: here is a *parapet.* What is a parapet?" "Look it up, my son." "Oh here is the word—parapet is," etc., etc. And so he goes on.—*J. C. Pickard, late Sup't Public Instruction Wisconsin.*

WEBSTER'S

UNABRIDGED

DICTIONARY.

NEW ILLUSTRATED EDITION.

A necessity to every intelligent family, student, teacher, and professional man.

"In our opinion, it is the best dictionary that either England or America can boast."—*National Quarterly Review.*

"In its general accuracy, completeness, and practical utility, the work is one which *none who can read or write can henceforward afford to dispense with.*"—*Atlantic Monthly.*

"Viewed as a whole, we are confident that no other living language has a dictionary which so fully and faithfully sets forth its prasent condition as this last edition of Webster does that of our written and spoken English tongue."—*Harper's Magazine.*

"THE NEW WEBSTER is glorious—it is perfect—it distances and defies competition—it leaves nothing to be desired."—*J. H. Raymond, LL. D., President of Vassar College.*

In one vol. of 1,840 Royal Quarto Pages.

Published by G. & C. MERRIAM, Springfield, Mass.

Sold by all Booksellers.

MORE VALUABLE THAN TREASURY NOTES.—How that old cynic, Sam Johnson, would have revelled through Webster's massive new Unabridged! How he would have gloated over its magnificent letter press and its illustrations, beautiful as New Treasury notes, and *much more valuable* to the student. The Merriams have incurred a fabulous expense in having the whole work rewritten, reset, recast, and republished. It is not a mere revision, but a reconstruction. It is a marvellous specimen of learning, labor, research, and taste. It is by far *the greatest literary work of the age.—Baltimore American.*

THE POOR MAN'S LIBRARY.—Its range of topics and fullness of treatment on matters in regard to which we have never thought of consulting a dictionary before, and yet have not known where else to go, have made the new illustrated edition of Webster *a library for the poor man*, and an indispensable piece of furniture for the table of the scholar.—*George Woods, LL. D., President Western University, Pa.*

HAS IN USE THE

"SPRAGUE APPARATUS,"

IN MANUFACTURING

Pure Nitrous Oxide Gas, for extracting Teeth without Pain.

That it is destined to supercede the old process, with the Rubber Bag, is beyond question. After trying that plan for more than twenty years,

PROF. COLTON

of New York, has adopted the Sprague Apparatus throughout.

Patients who have tried both, could not be hired to go back to the suffocating Rubber Bag process.

After more than twenty years experience, I am enabled to perform every operation pertaining to Dental practice in the most careful and skillful manner.

TRUMBULL HOUSE,

No. 48 State st. Hartford.

THE undersigned, of the late firm of ROOD & PARKER, having leased this old and well-known House, takes this method to return his thanks for the liberal patronage bestowed upon the late firm, and begs leave to assure the former patrons of the House and the traveling public that he is now THOROUGHLY RENOVATING the same,—painting, papering, carpeting, &c.

This House has been established many years; its reputation is believed to be **SECOND TO NONE IN THE CITY;** is centrally located, on the north side of State House Square, near the terminus of the city horse cars; and is particularly convenient for business men.

Every effort will be made to maintain the former reputation of this House; and the subscriber hopes, by personal attention to his guests,

TO MAKE IT AN AGREEABLE and PLEASANT HOME to all who may favor him with their patronage.

The Hartford Courant,

(DAILY AND WEEKLY,) AND THE

Hartford Evening Press,

THE COURANT is the oldest newspaper of prominence in the United States, and with less than half-a-dozen exceptions, the oldest printed in the English language. It was founded in October, 1764, and has been published uninterruptedly, under the same title, ever since.

THE DAILY COURANT

issued every morning except Sundays is the

LARGEST DAILY IN NEW ENGLAND,

and the only one which is regularly printed in the modern metropolitan quarto form. No effort or expense is spared to give it the character of a first class journal. It is published

AT 8.00 A YEAR,

and has a circulation second to but one provincial Eastern daily.

The DAILY COURANT publishes the weekly list of Advertised Letters in accordance with the law of Congress authorizing the Postmaster to print the same in the paper having the largest circulation within the limits of his Post Office delivery.

THE EVENING PRESS

is issued in two editions every afternoon, and is a distinct sheet from THE COURANT, possessing its own staff of writers, and containing a full resume of the news together with a large variety of interesting miscellany.

ITS PRICE IS $7.00 YEARLY.

THE CONNECTICUT COURANT

is a very large weekly, carefully made up of the most valuable matter appearing in the two dailies, and accompanied every other week by an eight paged literary supplement. Its circulation now approaches 10,000 copies, extending to all parts of the country, and making it one of the best advertising mediums in New England.

Its Terms are $2.50 a Year, or to Clubs $2.00.

POSTAGE.—The postage on the WEEKLY in Hartford county, FREE; to any part of the country 26 cents a year. On the DAILY, mailed to any State, 30 cents per quarter. The dailies are sent in bundles by express to towns about Hartford without cost to the subscriber.

BERNARD PETERS, Editor.

DURING the past year THE POST has passed under its present management. It has received the highest commendations from the public and the press, and, as the result, IT HAS MORE THAN DOUBLED ITS CIRCULATION. It has a larger country circulation than any other Hartford daily, and has made such important gains in the city, that it is now, ONE OF THE BEST ADVERTISING MEDIUMS IN THE CITY.

In the management of the paper no pains are spared to make it acceptable to the family circle. The news of the day is carefully condensed and promptly given. Miscellaneous departments are kept up, in which a full variety of interesting items appear. Its editorial pages keep pace with the events of the day. Foreign & domestic matters are discussed with candor. Politically it does not follow the blind lead of any party, though advocating fearlessly the cause of the Union, it will always aim to cultivate amity and harmony on sound principles throughout the length and breadth of the land. If a truth is to be spoken, it will give it utterance boldly, not hesitating from motives of policy or expediency, till the truth itself becomes "flat, stale and unprofitable." It will seek to be in advance on all public questions, and will criticise men and measures independent of party considerations.

A GATE that slides, balances and swings, was patented by Joel Lee, May 23d, 1865. It is cheaper than bars, and more convenient. Can be made and hung in 40 minutes. Can be built with cheap lumber for 80 cents, and can be operated by a child 5 years old. This gate has taken the first premium at all STATE FAIRS where it has been on exhibition, as the cheapest, easiest made, and most convenient farm gate in use. Rights for average farms are sold for $5.00 each, including printed drafts and specifications. On receipt of $5,00, in all cases accompanied by a particular description of the land of which the Right is desired, the appropriate Conveyance, Drafts, &c., will be promptly forwarded.

The Champion is acknowledged by all who have ever used it to be the most Perfect, Durable and Economical Machine for washing ever brought before the Public. It costs less than the ordinary Washing Aparatus and we defy any one to use it three weeks and prefer the old wash board process.

The advantage the **CHAMPION** has over all others are as follows : Its **COMPACTNESS**, its **LIGHTNESS**, its **EASE**, it also saves **SOAP** and **FUEL**, as it is not necessary to **BOIL** the clothes when washed by the **CHAMPION MACHINE.** A boy ten years old can use it. It is needless to make any more comments, **as it is the privilege of all to try it before they buy.**

WILCOX & GIBB'S
SILENT
Sewing Machines
ARE THE BEST
Family Sewing Machines in the World.

REASONS WHY.

It is absolutely noiseless as compared with any other Machine.

It runs with half the power of any other Machine.

It never breaks a needle, or thread, or drops a stitch.

Its needle is self-adjusting and can be set in the dark.

It makes the most elastic seam, and fastens its own seam.

You can Hem, Fell, Braid, Cord, Tuck or Embroider on this Machine as easily as you can do ordinary work on any other, and stitches all its work on the right side.

THE BEST REASON!
ANYBODY CAN RUN IT!

A child 14 years old, of ordinary intelligence can learn to run it in one hour.

WEED SEWING MACHINE COMPANY.

240 Main St., Hartford.

The following testimonial in favor of our NEW SEWING MACHINES is from Rev. HORACE BUSHNELL, D. D., of this city, and is selected from the numerous ones to be seen at the office of the company.

HARTFORD, May 15th, 1867.

HOMER BLANCHARD, Esq.,

Dear Sir:—Your WEED MACHINE has been sufficiently tried to test its practical merits; its comparative merits also as a piece of machinery have been carefully examined. It has the recommendation,—

1. That it will not embrioder; for it makes the common lock-stitch—the only stitch fit to be made—and no such winrow stitch as embroidering requires, and proper sewing disallows.

2. That it will operate in all possible varieties of fabric, the very heaviest, and the very lightest, in both of which some of our most celebrated machines will not operate; and if we have two or three other machines that will, they are greatly inferior to it in many points of construction.

3. That it is perfectly reliable ; doing always just what it was made to do, and is asked to do; and having no sulking fits, which it forgets the next morning without any assignable reason—a frequent complaint against one, at least, of our most brilliant machines.

4. That the good sense and close severity of the machinery is a very sure pledge of its merit; conceiving exactly the least thing to be done, and then exactly doing it—that and no more —never over-ingenious, or vitiated by surplussage of inventions The timing problem is nicely worked, and the needle, and shuttle, and feed motions play into each other, not jerkily, as if unwilling, but softly and easily, as if belonging to a perfect whole.

5. That it has a beautiful advantage in the new "*take-up*" improvement lately added by Mr. Fairfield—no rickety, and screechy wire work, or elaborately contrived reel-work, simple as a jewsharp, perfectly still, hitting deftly the exact point, by the cunning forefinger play of its motion. Considering how much this point has been labored, and the overdone contrivances gotten up to compass it, this little invention appears to be even a stroke of genius.

Having all these advantages, I think it will be found that your machine is practically second to no other, and that it will soon become a favorite with the public.

Very Respectfully Yours,

HORACE BUSHNELL.

HISTORICAL SKETCH, ETC.,

OF THE

CITY OF HARTFORD.

HARTFORD was first settled in 1635, by emigrants from Newtown, now Cambridge, Mass., and from Dorchester and Watertown; many of whom had come originally from Brain tree, in the county of Essex, England. The locality had been explored in 1634, and some huts had been erected, in what is now Wethersfield, where a few men passed the winter of 1634–5. The main body of emigrants, however, came across the country to Chicopee, in Springfield, and thence down the river, traveling by compass. The journey occupied about a fortnight; the same distance is now traveled in four hours!

The present locality of Hartford was called by the Indians, Suckiaug. The first settlers named it Newtown; but in 1636, it was formally named Hartford, after Hartford, now called Hertford, county town of Hertfordshire, England, and birth place of Rev. Samuel Stone.

Mr. Stone and William Goodwin received a deed of the land of the new settlement in 1636, from Sunckquassen or Sequassen, sachem of the Suckiaug tribe. This deed was lost, and the settlers repurchased the land of the Indians in 1670, taking a new deed for certainty's sake.

The Dutch had, in 1633, erected a fort which they named the House of Hope, on "Dutch Point," at the confluence of the Park and Connecticut rivers, within the present City of Hartford. But the Dutch were legislated out by the General Court of Connecticut, in 1654, and thus the new colony came entirely into the hands of the English.

The first town organization admitted "inhabitants," and even temporary residents, only by vote of town meeting. The officers were "townsmen," who answered to the present select men, but with more extensive authority; a town court, con stable, town clerk, crier, fence viewers, chimney viewers, and highway surveyors; and a little after were added grand jurors and a jailor. There was a public market semi-weekly, and a public fair twice a year.

The first town meeting was in 1635, the year of settlement, and the first General Court of Connecticut was held the next year, 1636.

A BRIEF LIST OF OCCURRENCES IN HARTFORD.

The first church in Hartford came ready organized, from Cambridge, with its pastor, teacher, and ruling elder, Hooker, Stone and Goodwin, and its first house of worship was erected in 1638, Mr. Hooker's barn having served instead, up to that time.

The first war was the Pequot war, 1637; for which Hartford contributed forty-two out of ninety men, including commander and chaplain; besides a large share of provisions, &c. The first flouring mill, date uncertain, was very early erected, near the present jail. In 1638, Ludlow, Haynes, Wolcott, Hopkins and Hooker, set about forming a written constitution, which was finished in 1639; the first ever formed in America, and which embodies the main points of all our subsequent State constitutions and of the Federal constitution; so that Hartford may claim to have been the model for our whole republic. A school was in operation here as early as 1638; and in 1643, sixteen pounds a year were voted to the teacher. A house of correction was in operation in 1640. An inn was ordered by the General Court, and established in 1644, nearly opposite the Center church. It was from this inn that Capt. Wadsworth took the Charter, to conceal it from Andros, in 1687. The first colony emigrated from Hartford in 1645, and founded Farmington. Others succeeded; one founded Middletown in 1650; another founded Norwalk in the same year; and a third founded Hadley, in 1659. Hartford has sent out innumerable delegations and single emigrants, ever since, to all parts of the world. Not less than five hundred and fifty of her sons and daughters are now living in the single city of New York. In 1650, our first mission was organized, by order of the General Court; which directed a teaching elder and an interpreter to go among the Indians twice a year to endeavor to convert them. In 1650, also, our first code of laws was drawn up, chiefly by Roger Ludlow; which reduced the number of capital offences from the hundred and sixty of England, to about fifteen. In 1657, Gov. Hopkins left about £1,000, part of which endowed the Hartford Grammar School, yet in existence as the classical department of the Hartford High School. In 1687, the independent spirit of the colony was shown by the quiet but determined resistance made to Andros, in his attempt to take away the Charter of 1662; when the lights being put out by arrangement, in the room where Andros and the authorities had the Charter and were discussing it, Capt. Wadsworth carried it off in the dark and hid is so effectually in the hollow of the Charter Oak, that it could not be found. The charter was thus hid from October 31, 1687, to May 9, 1689. In October, 1693, Col. Fletcher came to Hartford to assume command over the Connecticut militia, and attempted to read his commission at the head of the train-band, but was foiled by Captain Wadsworth, who commanded the drums to beat, and told Fletcher that if interrupted again, he would make the sun shine through him in a moment. The first printing office was set up here by Thomas Green, in 1764, who established the Connecticut Courant in October, 1764. In 1775, a small committee of enterprising men met here and made those arrangements for raising men and money, which resulted in the taking of Ticonderoga by Ethan

Allen "in the name of the Great Jehovah and the Continental Congress." In 1784 the city was incorporated. In 1792 the Hartford Bank and the Hartford Charitable Society were established. In 1797—9, the first steam locomotive ever made, was set running in Main st. by Dr. Kinsley; also, inventor of the brick-pressing machine. The "Mansion house" on Kinsley st. was built by him, with brick made by himself—probably the oldest *home*-pressed brick house in the United States. A few inches from the ground at its south-east angle, is the inscrip tion "A. KINSLEY. 1796." In 1811 Elihu White removed his Type Foundry from this city to New York city, to whom Farmer, Little & Co. are his last successors. To a Hartford man, John I. Wells, was issued in 1819, the first patent for lever printing presses. Our oldest Insurance Company, the Hartford, was organized in 1810; and the Ætna in 1819 The American Deaf and Dumb Asylum was chartered in 1816. Trinity College, in 1823, the Retreat for the Insane in 1824, the Historical Society in 1825, reorganized 1839, the Orphan Asylum in 1833, the Young Men's Institute in 1839, succeeding the Hartford Library Company established before the Revolution and chartered in 1799, the Wadsworth Atheneum in 1842, the Hartford Hospital in 1854, the Watkinson Library 1854, and other charitable or educational and literary organizations, all of which have been liberally or exclusively aided by the citizens.

The street formed by the DYKE around Col. Colt's improvement is 32.50 feet above the base line of the city, which corresponds with low water mark. It is 8,698 feet long, 30 to 50 feet wide at top, having cost $80,745.35. This Dyke encloses 123 acres of land.

THE STATE HOUSE in this city was first passed upon by the Legislature in May, 1792—its erection commenced in 1794, and was first occupied in 1796, and cost $52,480.

In the Senate Chamber is a celebrated original painting of Washington, taken from life, by Stuart. Also, portraits of Governors of Connecticut, up to 1865, and the Governor's Chair, carved from the wood of the Charter Oak. This chamber was where the noted Hartford Convention assembled in 1814; and whose notoriety has become totally eclipsed by Secession conventions in 1861, in other states.

Good Friday has been annually set apart as a day of Fasting and Prayer by the respective Governors of this State since the practice originated with the second Gov. Trumbull, on Friday, the 6th day of April, 1798.

HARTFORD CITY

Is built on a strong clay soil, but that near the river is of a rich black mold. It is three and one half miles in length, north and south, by two in breadth. (The *Town* of Hartford is five and one half miles long, by three and one fourth broad.) It is located on the west side of Connecticut river, at the head of steamboat navigation, and 50 miles from its mouth, in latitude

41 deg. 45 min. 59 sec., and longitude 4 deg. 15 min. East from Washington. By railroad it is 111 miles north-east from New York and 124 miles west by south-west from Boston, and 126 miles south east from Albany, 90 miles west of Providence. The Legislature of the State meets here every other or odd year. The city is divided by Park river, spanned by 7 bridges.

The *Main Street Bridge* is of a single arch, on rock foundation and is 100 feet wide, 7 feet in thickness at the base, and 3 feet 2 inches at the center—the chord or span of it is 104 feet, and it is 30 feet 9 inches from the bed of the river to the top of the arch. Cost $31,500.

The *Front Street Bridge* cost $10,000, and was built in the year 1853; is 44 feet wide, 148 feet long,—of three free-stone arches—two of 34 feet span, and one of 35 feet—all semi-circular, and divided or supported by two piers, each six feet wide.

The *Ford Street Bridge* cost about $15,000, and was built in the year 1850; is 35 feet wide, 174 feet long, of five freestone arches,—the north and south of fifteen feet span each—the oth er three of 18 feet each; width of arches 26 feet; width of piers 5½ feet; height from top of center arch to top of sides, 7 feet.

The *Asylum Street Bridge*, junction Asylum st. and to west drive on Park; erected of wood, fall 1858; cost $2,500.

The *Wells Street Bridge*, from 41 Wells street to east drive on the Park; erected of wood, fall of 1858; cost $2,500.

The *Trumbull Street Foot Bridge*, erected of iron in 1864, cost $4,000, and is 75 feet long, 10 feet wide and 18 feet from bottom of river, of one span, and bears ten tons in the center.

The *Commerce Street bridge*, a swing or draw-bridge, costing $9,000, erected fall of 1859.

The *Great Bridge*, across the Connecticut river, is more than 1000 feet in length, and cost about $125 000.

THE HIGHEST FRESHETS IN THE CONNECTICUT RIVER.

THE OAK TREE,

In the trunk of which was concealed the Charter of Connecticut from Oct. 31, 1687, to May 9, 1689, was blown down in a severe storm, Aug. 20, 1856. It stood on lot No. 29 Charter Oak avenue. This Charter was won by Gov. John Winthrop to the colonists from Charles II., King of England, April 23d, 1662, and the unsuccessful attempt to wrest the same from the State was made by Sir Edmond Andros, Oct. 31, 1687. The original Charter is in the office of the Secretary of State, framed in wood from the tree that concealed it from the minions of James II. The mode of government established by this instrument was superseded on the adoption of our present constitution, in 1818. On the 23d day of April, 1862, this Charter was 200 years old.

SEWERS,

Have been made under nearly every street in the city. In 1866 a second sewer was laid in Main st., at the depth of 14 feet, from church st. to stone bridge, a distance of 2300 feet.

BOARD OF WATER COMMISSIONERS.

HIRAM BISSELL, Pres.	RICHARD S. LAWRENCE.
GEORGE RUST,	NATHANIEL H. MORGAN.
ALBERT P. PITKIN,	DANIEL PHILLIPS.

HARTFORD WATER WORKS.

The Office of the Commissioners is 19 Pearl st. The Pumps, &c., 2 Water st. Surveys were commenced Oct., 1853, ground broke June, 1854, and first pumping of water Oct. 23d, 1855. The pier in the river, to protect the receiving pipe, is where, at low water, there is 12 feet in depth, the water running into a well 140 feet from the river; from thence it is pumped 9 feet.

The MACHINERY used for pumping, up to Jan. 2d, 1867, 2 P. M., (at which time water from West Hartford was substituted,) is different in principle from anything heretofore used

for this purpose.—Four double pumps of simple construction are employed, and these are so actuated by cams as to produce a constant and uniform flow of water.

The RESERVOIR is located on Garden street, at the head of Myrtle, and is connected by 6,879 feet of 16 inch iron pipe, with the Pumps on Water st. The banks are thirty-two feet in height, designed to be filled to the height of thirty feet, which is one hundred and twenty-five feet above low water mark at the river, and will hold eight millions six hundred thousand gallons. When the Reservoir is filled to its maximum height, from river water, the head at various points is as follows:

In Main street near Trumbull street,	52 feet
" " " in front of State House,	66 "
" Main street on Stone Bridge,	83 "
" " " by South Church,	73 "
" highest point on College grounds,	40 "
" Washington street at Buckingham street,	43 "
" Windsor avenue, at Arsenal Gate,	44 "
" Front street, at State street,	98 "
" " " " Morgan street,	101 "
" Pleasant street, at Winthrop street,	68 "
" " " " Windsor street,	96 "

In the PUMP pit are placed 4 pump barrels, in each one of which work two lifting or bucket pumps, with their valves opening upwards, making actually 8 pumps in all; each pump has an average diameter of 19 in. and 16⅔ in. of effec. stroke.

The Water Rents collected for the year ending March 1, 1867, amounted to $62,329.08, and expenses to $58,919.12, leaving a balance over current or running expenses for the year, of $3,409.96. Every cent for the water rents has been collected.

There has been laid for extension and improvement of the distribution, 5,988 feet of wrought iron and cement pipe, and 4,125 feet of cast iron pipe, making 10,113 feet added the past year, which with the 21,270 feet of twenty inch West Hartford main, make thirty eight miles 5,106 feet of pipe now in use.

The number of hydrants for fire purposes now in use is 184. Nine of these have been added the past year.

One hundred and six new service pipes have been laid the past year, making the number now in use, 2,760.

The expenditures incurred in the construction of the works at West Hartford up to March 1, 1866, were $63.206.90, as stated in the last annual report. Since that time there has been expended $142,335 62; making a total of $205,542.53.

Reservoir No. 1 has been completed, and at high water flows 32 acres. Its capacity is 165,000,000 United States gallons. The altitude of the reservoir at top water above low water of Connecticut River is 260 feet, and gives a head at the State House of 135 feet more than the old works.

With a view to increase the storage capacity, surveys have been made of three reservoirs above reservoir No. 1, two of

which, Nos. 2 and 3 are located on the north branch, known as "Mine Brook." No. 3 lays about one 1-10 mile in a northerly direction from No. 1, on the same stream with No. 2. Its area, as located, is 49 acres, capacity can be increased to over 400,000,000 gallons. No. 4 is situated on the middle branch of "Trout Brook," about 4000 feet northwesterly from No. 1. It covers an area of 35 acres, with a capacity of over 278,000,000 gallons, which if desirable, could be increased to upwards of 334,000,000 gallons. Thus it will be seen, that, if it should be deemed desirable hereafter, the storage capacity can be increased to over 1,000,000,000 gallons by buidilng these reservoirs.

The Board have decided to locate the second reservoir on the site mentioned above as No. 3. A portion of the land has been purchased, and the work is to be commenced at an early day and pushed to a rapid completion.

The project of turning the waters of a stream on Talcott Mountain, at a point about one mile west of the "Toll Gate" on Albany Turnpike, into Mine Brook, has received the earnest attention of this Board. The necessary surveys have been made, and the land and right of way purchased and deeds obtained.

The entire expenditure upon the whole work, including interest, up to March 1, 1866, has been $797,819.70 and receipts $797,845.48.

Reservoir No. 1 has been completed, and at high water flows 32 acres. Its capacity is 165,000,000 United States gallons. The Dam is six and three-tenths feet above top water, making it in the extreme 53 feet in height; its length is 782 feet The altitude of the reservoir at top water above low water of Connecticut River is 260 feet, and gives a head at the State House of 135 feet more than the old works.

The penalty of overcharge is a fine of from $3 to $5.

Churches.

FIRST CHURCH EDIFICE ERECTED IN HARTFORD.

The location of the first church has not been accurately ascertained. It was nearly upon the eastern end of State House Square; and the burying ground was bounded east and south by Market st. and State st. It was a square building *probably* framed, and with a thatched roof. In 1640 it had a bell. In 1649 the old church was given by the town to Mrs. Hooker, and a new one built.

HOURS OF PUBLIC WORSHIP.

1. The morning service on the Lord's day, to begin throughout the year at 10.45 o'clock—bells to be rung at 10.30.

2. From the Second Sabbath in October to the last in March, inclusive, the afternoon service to begin at 2.45. From the first in April to the last in September, inclusive, it is to begin at 3.15.

3. The hours of evening services usually are as follows; from the first of December to the last of February, at 7 o'clock; from the first of June to the last of August, at 7.45; through all the remaining months at 7.30. Ringing of the bells in all cases fifteen minutes before the time for the commencement of the services.

RELIGIOUS ORGANIZATIONS IN CITY OF HARTFORD.

The first Church organization in Hartford was originally gathered in Newtown, (now Cambridge,) Mass., and was duly organized by the Installation of THOMAS HOOKER as pastor, and SAMUEL STONE as teacher, October 11th, 1633.

In June, 1636, Messrs. Hooker and Stone, with about one hundred of their people, removed to this place, being the first Church established in Connecticut. This Church embraced the territory now occupied by the Churches of the City; of East Hartford; and of West Hartford.

WADSWORTH ATHENEUM,

206 *Main Street, opposite to Mulberry Street,*

Is a granite building of 100 feet in length, on Main street, and 80 feet in depth in center wings, and 70 feet in depth in outside wings, and is appropriated to four distinct Societies. Its architectural style is of the castelated structure, with central towers 70 feet in height, and corner butresses 56 feet in height. The stone, which is a species of gneiss, was procured from the east part of Glastenbury, about nine miles South East of this city.

The North division, first story 13 feet high, second story 24 feet high, and both 65 feet long by 30 feet wide, is occupied by the Young Men's Institute, for a reading room, quarterly and other meetings, and by their Library, of 10,000 volumes.

The South division is of the same dimensions as the North. The Connecticut Historical Society use this.

The central division of similar dimensions with the others, is used as a gallery of very valuable PAINTINGS and STATUARY.

The building was erected by voluntary contributions of citizens, and, with the land and fence, cost $52,085.38.
